

PEROXIGARD™

ACCELERATED HYDROGEN PEROXIDE™

A new generation of hydrogen peroxide.

Accelerated Hydrogen Peroxide (AHP) is a patented colorless and volatile free liquid cleaning and disinfecting solution developed by Virox Technologies Inc.

AHP is a synergistic blend of commonly used safe ingredients that when combined with low levels of hydrogen peroxide dramatically increase its germicidal potency and cleaning performance.

AHP contains only those ingredients listed on the U.S.A EPA inert listing and the GRAS listing (Generally Regarded As Safe) published by the EPA which contribute to an unsurpassed health, safety and environmental profile.

Application for Aquaculture:

- Sanitization (30 sec) and disinfection (5 minutes)
- Surfaces - For general surface disinfection or sanitization in hatcheries and at grow out sites
- Equipment - Hatchery tanks, grading equipment, vaccination equipment, transport tanks, nets, vehicles
- Foot baths - Biosecurity measures for hatchery and grow out site operations

Advantages:

- Shorter contact times
- Effective against a broader spectrum of organisms
- Exceptional cleaning capabilities
- Safer to use
- Environmentally responsible

Personal Health and Safety Profile:

- Non-toxic
- Non-corrosive to skin
- Non-irritating to eyes
- No volatile organic compound vapours (VOC's)

Environmental Responsibility:

- No active ingredient residuals on surfaces once dry
- Hydrogen Peroxide breaks down to oxygen and water
- Biodegradable surfactants (OECD standard)
- AHP ingredients are on the EPA inerts list and/or the EPS GRAS listing
